# Asset Fident offer Card to investors on FIDENT PLAN

The partnership aims to fill a gap in the traditional financial system that has left many without access to essential banking products. According to a 2017 survey by the FDIC, 25 percent of U.S. households are unbanked or underbanked, while global numbers have reached a staggering 1.7 billion, according to data released by the World Bank. Through BlockCard, Asset Fident investors can have a virtual card issued to them while a physical card is mailed to them. The card has a minimum of \$1000 balance needed. It can be used at over 45 million merchants and ATMs – anywhere in the world where major credit cards are accepted.

By looking for market inefficiencies, we determine the gap between the optimal price and the current market price of the asset, and produce excess revenue. We look for investment opportunities through intensive research, analysis and insight.

With a continuous and consistent investment approach and extensive risk management, we aim to steadily reach our investment goal. We combine our deep knowledge of local markets with the power of coordinated global oversight to drive better investment outcomes for our investors.
